# ARTHUR ONYEANUSI

## Full Stack Developer

*Building performant modern web applications — from pixel-perfect frontends to scalable backends.*

+234 702 647 6769    arthuronyeanusi@gmail.com    github.com/Edarth002    arthuronyeanusi.vercel.app

## PROFILE

Versatile Full Stack Developer with hands-on experience shipping production web applications across startup, enterprise, and Web3 environments. Skilled in building responsive frontends with React.js and Next.js, scalable REST APIs with Node.js and Express, and CMS-backed architectures using Strapi. Strong focus on clean architecture, performance optimization, accessibility, and code quality. Currently completing a B.Sc. in Computer Science at the University of Nigeria, Nsukka.

## SKILLS

Frontend:  JavaScript · TypeScript · React.js · Next.js · TailwindCSS · Vite · EJS

Backend:  Node.js · Express.js · REST APIs · SSR · Strapi

Database:  MySQL · MongoDB

DevOps & Tools:  Git · GitHub · Vercel · CI/CD · Cloudinary · next/image

## WORK EXPERIENCE

Enoverlab *Dec 2024 – Jun 2025*

*Frontend Web Developer*

– Built responsive, accessible web apps using React.js, Next.js, and TailwindCSS

– Collaborated with designers and product managers to implement features and optimize UX

– Conducted code reviews and drove performance and accessibility improvements across the codebase

Web3Lagos *Sep 2024 – Oct 2024*

*Frontend Web Developer*

- Designed and implemented UI for Aurora, a blockchain-based creator payout platform built at the Web3Bridge Hackathon

- Integrated wallet connectivity and real-time on-chain data using Ethers.js

- Collaborated with backend and smart contract engineers in a fast-paced agile team

Moon and Earth Auto *Jan 2026*

*Web Developer*

- Designed and developed a full production website for a premium luxury car dealership in Lagos

- Built a live database-backed vehicle inventory with category filtering (SUVs, trucks, buses, minivans)

- Implemented a workshop appointment booking system, homepage enquiry forms, and Cloudinary video integration

- Delivered end-to-end including Terms, Privacy, and About pages; currently optimizing load times with caching

Inspirations Computers Concept *Jan 2025 – Feb 2025*

*Web Developer*

- Independently designed, developed, and deployed the company website end-to-end

- Used Next.js for SSR and TailwindCSS for a fully responsive design

- Presented final product to stakeholders, showcasing all core functionality

## FEATURED PROJECTS

Moon and Earth Auto [moonearthauto.com](moonearthauto.com)

Stack: Next.js · TailwindCSS · MySQL · REST APIs · Cloudinary · Vercel

Premium luxury car dealership website with a live database-backed inventory, category filtering, appointment booking system, and Cloudinary video highlights. Serving real high-profile clients in Lagos, Nigeria.

Thrive Sphere [thrive-sphere.vercel.app](thrive-sphere.vercel.app)

Stack: Next.js · TailwindCSS · Strapi · REST APIs · Vercel

Full-stack e-learning platform with course browsing, user authentication, coaching services, community pages, and a Strapi CMS backend. Frontend deployed on Vercel.

Deb's Unique Baked Goods [debsuniquebakedgoods.com](debsuniquebakedgoods.com)

Stack: Next.js · TailwindCSS · next/image · Vercel

E-commerce-style bakery website with an image carousel, categorized menu pages, testimonials, and Instagram feed integration. Delivered end-to-end for a food business client.

Aurora — Web3Bridge Hackathon github.com/victorbuikem/aurora-frontend

Stack: React.js · TypeScript · Ethers.js · Blockchain

Decentralized creator payout platform built at Web3Lagos. Leverages smart contracts and React to provide a media streaming platform that tracks and pays out donations to creators via the blockchain.

Personal Portfolio arthuronyeanusi.vercel.app

Stack: Next.js · TailwindCSS · Vercel

Fully custom portfolio built from scratch — no templates. Features scroll-triggered animations, marquee skill ticker, CI/CD on every push, and a curated showcase of client and personal projects.

## EDUCATION

University of Nigeria, Nsukka  *2021 – 2025*

*B.Sc. Computer Science*  ·  Completed
